Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 February 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 3-5 and 11 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 3-5 and 11 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 3-5 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has presented new claim 11 which requires that "at least two adjacent tapes are wound on and fusion bonded to an unoriented plastic core" (lines 1-2 of claim 11) "wherein one face of each tape of the assembly is fusion bonded to the unoriented plastic core". In order for one to be able to have one face of each tape of the assembly fusion bonded to the unoriented core and the at least two tapes adjacent one another, one would have had to have wound the tapes upon the unoriented core in a side by side and abutting relationship. However, this is not originally disclosed and certainly was not in applicant's possession at the time the application was filed. In fact, the tapes were defined as being adjacent one another through the thickness of the wound assembly (i.e. one tape was wound onto the unoriented core at an angle to the axis of the core and a second tape was wound onto the first wound tape at an equal and opposite angle to the angle of the first tape). The applicant was not in possession of multiple tapes which tapes were all joined to the unoriented core via fusion bonding (as the second

tape was described as being wound onto the first tape so that the tapes were adjacent each other through the thickness of the assembly).

Response to Arguments

3. Applicant's arguments with respect to claims 3-5 and 11 have been considered but are moot in view of the new ground(s) of rejection.

Applicant argues that in Greig the carbon black was incorporated into the tubular support and thus Greig requires that all the windings of the tape be performed prior to the heating operation rather than separate bonding and winding of separate layers. The applicant is advised that the claims at hand do not define this operation. Additionally, Greig suggested that those skilled in the art would have known to include absorber within the plastic layers which were being wound upon the core as evidenced by page 11, lines 6-13 of the reference. Applicant is advised, however that the claims as presented do not recite the application of the plastic oriented layers one layer at a time and additionally clearly require that the layers be applied such that each tape make contact with the core (so that one layer is not applied at a time to form a single layer but rather both tapes are applied to provide a single layer of tape over the unoriented core).

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kile et al suggested that it was known to apply an oriented plastic tape over a pipe in order to reinforce the same. Greig '331 is the U.S. equivalent of U.K. '584 to Greig.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on 571-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
